## Last 3 years

## Investment objective

The Fund objective is to offer investors exposure to a selection of liquid Swiss Mid and Small Cap (over 1 billion market cap) stocks. The fund assets are invested in a diversified portfolio of around 20-30 companies. GMG strives to consistently exceed the benchmark return. The investment horizon is long term. Investment decisions are based on fundamental company analyses. Macroeconomic factors are also included in the decision-making process. Investments consider and assess corporate governance and other key ESG aspects.

## Fund managers comment

GMG Swiss Small & Mid Cap invests in a selection of high-quality stocks of the Swiss Small & Mid Cap universe (SPI Extra index) with a bias on Mid cap. Selected Small cap companies have a market cap of at least CHF 1 billion, ensuring liquidity. There is no compromise on the financial solvency of the selected companies. The investment philosophy is based on real economy, value bias, and long term. It reflects the strong convictions from our Swiss investment team. The Team has access to all CEOs/COOs of the companies in its investment universe, attends more than 300 investment meetings per year with these top managers and is permanently connected to the most specialized analysts of the sector. GMG Institutional Asset Management SA is a FINMA regulated company. GMG Swiss Small & Mid Cap is a FINMA authorized Fund.

## Risk Return Ratio

The risk return ratio shows the relation between the risk incurred for an investment and its expected return.

An investment is preferable if for a given level of risk, the yield expected is maximum or when the return implies a minimal risk.
